

# The Beecher's Story

Located in Seattle's Pike Place Market since 2003, visitors to Beecher's Handmade Cheese's glass-walled cheesemaking kitchens witness first hand the crafting of their signature favorite, Flagship cheese, as well as many of the other award-winning cheeses Beecher's has to offer.

By starting with fresh, pure milk from local farms and applying the traditional methods used by cheesemakers for thousands of years, Beecher's cheeses are free of artificial ingredients making them just as delicious as the milk they are made from.

*A cheesemaker stirs the curds and whey in Pike Place Market.*

Our Beecher's Credo says it best: Beecher's only makes foods with ingredients we trust, are proud of, and eat ourselves. It's just authentic and original food, full of flavor.

In keeping with our commitment to pure food, Beecher's contributes 1% of all sales to the Beecher's Pure Food Kids Foundation, empowering kids to make healthy food choices for life. ([www.purefoodkids.org](http://www.purefoodkids.org).)

# Ordering is Easy
